

Museums Opening June 16

The John & Annie Glenn Museum and the National Road & Zane Grey Museum are happy to announce that they will be opening their doors for the season on June 16, 2021. Hours will be Wednesday – Saturday (10 – 4) and Sundays (1 - 4). Everyone’s health is of the utmost importance and both museums will be taking Covid-19 precautions in line with the guidelines presented by the State of Ohio.

Over the past year, volunteers and staff of the Glenn Museum have been busy working on an exciting new addition, The Annie Glenn Gallery. The gallery showcases Annie’s life through her passion for music, her triumph over a communication disability, her close relationship with her family, and, of course, her life with John.

This year is also an important one as John Glenn would be 100 years old on July 18. To recognize the milestone, special activities are being planned throughout Guernsey and Muskingum Counties, as John was born in Cambridge and raised in New Concord. Many of these are being planned throughout the month of July with a plethora of events scheduled for Saturday, July 17. The day will begin with a Friendship 7-Miler Race followed by a Friendship 7 Parade, both from Cambridge to New Concord!

Exciting news for kids; Space Camp is returning too from 9:30 – 2:00 on July 12th for ages 8-10 and July 13th for ages 11-12. Participants will learn what it would be like to live in space as this year’s theme is “Habitats in Space: At Home on the Moon”. The cost is \$20 and includes a pizza lunch provided by Wally’s Pizza. Space is limited so register soon.
